cut

Directions:

- 1) Fold each dotted line in numeric order (3 folds on each sheet)
- 2) Make a cut on the solid lines on each sheet
- 3) Intersect the 2 cut lines
- 4) Stand up the focus sheet upright using the "feet" on each sheet to help it stand upright with the scale at a 45 deg angle
- 5) You can put something on the back side of the focus sheet to help support it
- 6) Shoot perpendicular to the focus sheet and see where your focus plan lies on the scale sheet and make appropriate adjustments
